

HEALTHY LEARNERS

Healthy Children. Better Students. Thriving Communities.

CHILD ELIGIBILITY

Healthy Learners serves students who lack adequate access to health care. Our target population is the children who would otherwise fall through the “cracks” of the system. This includes students whose families do not have private pay capability and those students who have Medicaid, but who need assistance in accessing appropriate health care. Students with identified health needs and little or no means of funding are referred to Healthy Learners by their school nurse. School nurses use the free/reduced lunch guidelines to help determine financial eligibility; however, service may be determined on a case by case basis.
